

MAS-Power Active Fruit™

32.0% Potassium + Natural extracts

MAS-Power Active Fruit is a new foliar nutrient package designed specifically increases the size and quality of all fruits. Using a unique package of specifically chosen elements and natural extracts, Active Fruit will also aid crop and plant quality, health and tolerance to abiotic stress factors.

Guaranteed Analysis

	w/w	w/v	g/l		w/w	w/v	g/l
Potassium (K ₂ O)	22.3%	32.0%	320	Magnesium (MgO)	0.03%	0.045%	4.5
Sulphur (S)	15.2%	21.0%	210	Plus MAS-Power fruit extract package			
Nitrogen (N)	0.06%	0.09%	9				

Crops

All fruiting species including top fruit, stone fruit, berry fruits, vine crops and fruiting vegetables.

Directions for Use

Active Fruit is specifically created for foliar use. For a correct application of the product it is recommended to apply enough water ensure full coverage of the applied crop.

The recommended application rate for all fruiting crops 2.0-3.0 Litres per hectare diluted in 500-1000 L of water (according to type of crop and mode of application). Avoid application when temperatures exceed 30°C and or in full sun. MAS-Power Active Fruit contains high levels of available nutrients and should only be used as recommended. long term damage, and aiding rapid tissue recovery.

10 litres e

Crop Timings and Application Rates

Crop	No of application	Timings	Applications rate
Top fruit	3-5	From start of fruit expansion to harvest at 10-14 day intervals	2.0-3.0L/ha depending upon water volume
Stone fruit	2-4	From start fruit expansion to harvest at 10-14 day intervals	2.0L/ha
Berry crops	2-3	From start fruit expansion to harvest at 10-14 day intervals	2.0L/ha
Vine crops	3-5	From start of fruit expansion to harvest at 10-14 day intervals	2.0-3.0L/ha depending upon water volume
Fruiting Vegetables	2-4	From start of fruit expansion to harvest at 10-14 day intervals.	2.0-3.0L/ha

Compatibility

Active Fruit is compatible with most known pesticides, PGR's and nutritional foliar products and will sit well within tank mixes, however it is advisable to conduct a jar test or speak to your Engage adviser where mixes contain multiple products or where a pesticide is being used for the first time. It is not recommended to mix Active Fruit in concentrated form with multiple products in a pre-mix. It is advisable for optimal result of tank mixes to achieve a mix pH of 6.0-7.0. Do not add to strongly acidic tank mixes.

Precautions/Personal Protection

Heating: do not overheat the drum of MAS-Power Active Fruit as heating may cause sulphur dioxide gas to evolve.

Handling: Wash hands thoroughly after handling and before eating or smoking.

Storage: Store in original container and keep closed when not in use and when empty. Protect from freezing. Protect from damage. MAS-Power Active Fruit is considered to have a low toxicity to humans.

Warning
