

CS1 Seaweed Extract

100% Concentrated Seaweed Extract

CS1 is a blend of specially chosen concentrated seaweed extracts to give optimal support to fruiting and flowering crops.

CS1 is a blend of phytohormone rich seaweed species taken from different locations across the Atlantic and Pacific oceans and blended together to optimise the levels of natural occurring amino acids, vitamins and phytohormones. CS1 concentrated liquid seaweed is produced using 'Cold Cell Burst Method' to retain all the natural attributes of the seaweeds.

Natural Element Declaration

1.0% Organic Nitrogen	0.50% Phosphorus (P ₂ O ₅)	1.0% Potassium (K ₂ O)
1.0% Magnesium (MgO)	0.1% Calcium	100 mg/kg Iron
0.59 mg/kg Zinc	3.0 mg/kg Manganese	0.13mg/kg Molybdenum
80% Alginic acid	16% natural amino acids	100mg/kg Gibberellins
200mg/kg Cytokinin	200mg/kg Auxins	Vitamins and flavanoids

Miscibility and Rate for Use

CS1 is 100% miscible and is compatible with all known nutrients and plant protection agents, however, mixtures with strong alkali's or mineral oils should be avoided. A compatibility (jar) test with mixes with multiple partners is always recommended before practical use.

Application

CS1 can be applied as a foliar spray, root drench, through irrigation lines or as a root dip during planting. It can be used throughout the year from early growth. Continue to apply in conjunction with other sprays during the season when support is required. Recommended foliar application rate is 1.5-2.0 litres per hectare depending upon crop and frequency of application.

CS1 is proven to be suitable for the recommended purposes when used in accordance with our application and rate instructions. **For use on all crops.**

For more information on individual crop rates contact you Engage advisor.

Precautions

CS1 is not harmful so no regulatory rules apply however if it is inhaled move affected person to fresh air. If any discomfort continues it is advisable to seek medical attention.

If ingested, if necessary, rinse mouth and provide fresh air. Seek medical attention if any discomfort continues.

Skin contact: wash off with soap and water.

Eye contact: Rinse immediately with plenty of water. Remove any contact lenses and open eyelids. Continue to rinse for at least 15 minutes. Seek medical attention if any discomfort continues.

KEEP OUT OF REACH OF CHILDREN AND PETS.

Opened containers should be used up or be resealed immediately. CS1 can be stored in the unopened original container for up to two years. Store between 5°C and 40°C and avoid freezing. Dispose of container according to local recycling regulations.
